

September 2005

# Apple Bytes

A publication of San Leandro Macintosh User Group

## Tiger is huge...

We know that Tiger has a lot of new features. The Special Edition from MacWorld Magazine is fascinating and barely scratches the surface. Ed will distribute them at the meeting.

I am really enjoying the magazine and have ordered a couple of more books on the same subject in my quest for Tiger knowledge.

Update 10.4.3 has been seeded to developers and is now expected to be available sometime in September. As usual this is just another in the ongoing "Bug fix" series.

Finally Safari is getting some badly needed attention and is starting to look like a real browser. Perhaps Randy will give us an update at the meeting.

For those of you who are planning to attend MacWorld Paris you can probably expect to see some new updates to the PowerBook line. Perhaps just another speed-bump. It could be the last update we see before the magical "upgrade" to the dark side. It is also possible that the recent IBM announcement of faster PowerPC chips could see the light of day. The keynote is due on Sept. 20th.

That's all folks...

# Club Calendar for September

Sept 2005

- 1.. SLMUG General Meeting 7:30 pm  
San Leandro High School  
Room 507 (Shop 7 Graphics Lab)  
2200 Bancroft Ave.

## September 1st meeting features...

Bob Shayler will present FreeFall. He found this program at the best equipped Apple store in the United States. He was visiting our country's largest indoor mall located near Minneapolis while on his recent Dog Safari. He will demo the program as he is also incorporating it into his Science Class Curriculum. Be sure to attend.
