

December 2005

Apple Bytes

A publication of San Leandro Macintosh User Group

Tiger is here to stay for a while...

Rumor has it that 10.4.3 is good enough to create a release version. It is expected in the very near future. What about the version of 10.4 for the intel chips? Will it be called iTiger or maybe TigerAye? It might even be bisexual. For that little tidbit we may have to wait until MacWorld Expo SF to find out.

Our bevy of machines are all running 10.4.3 with zero defects. The install was one of the easiest on record, if you follow the recommended pre-install procedures. Some minor problems have be noted by those who "just jumped in" and threw caution to the wind. A reinstall solved that problem in most cases. OS X 10.4.3 has been reported to be the most stable OS to date. (Mikey likes it!)

What do you think will happen at Macworld next month? It is rumor time, friends. Food for discussion at the forthcoming meeting.

As a reminder, we need to have the annual election of officers at the forthcoming meeting. It's that time of year again.

Happy Holidays to all.

Club Calendar for December

Dec 2005

1... SLMUG General Meeting 7:30 pm
San Leandro High School
Room 507 (Shop 7 Graphics Lab)
2200 Bancroft Ave.
San Leandro (Info: 510 828-9314)

December 1st meeting features...

Election of next years Officers will be first on the agenda. Randy has promised to enlighten us on some of his recent observations for sure this month. Ed will discuss the CD DOM. Perhaps Deborah can debrief us on her recent trip to New York for brain stretching. Bob will cover a few noteworthy features of iCal and Wikipedia. John will review a little known safety item in Adobe InDesign. Be sure to attend.
