

March 2007

Apple Bytes

A publication of San Leandro Macintosh User Group

Work Day Successful...

The February 10th workday was in all respects very successful. The turnout was good and 12 computers were completely reworked and have since been distributed to wanting teachers. We have to install memory chips in another 10 computers and they will ship this week. A big Thank You to all who participated.

Thanks to Deborah Reinerio the Lab has been completely converted to converted to eMacs. That has been her goal for the last year or so. She is to be congratulated for her perserverence as this has been no small project.

Special note! This coming meeting will feature Prosoft Engineering as our guest presenters. Be sure to attend. We may see some new stuff.

This newsltter will be a bit smaller the normal as no minutes of the preceeding meeting were recorded. Our Secretary, Dayle Scott and his lovely wife are still on an extended trip of Australia and New Zealand. I expect we will have a nice slide presentation when they return. Even our illustrious President will miss the next meeting due to attending the Cue conference in beautiful Palm Springs. Must be nice.

A lot has been happening in the world of Apple so there is a lot to cover at the meeting.

That's it for now...

Club Calendar for March
